Language

English

Sanket Sawant

I am Sanket Sambhaji Sawant, currently pursuing my second year at Sharad Institute of Technology in the Department of Computer Science and Engineering. I am a highly motivated individual with a strong desire to learn and grow in the field of technology.As a student, I am committed to achieving my academic goals and have developed a solid foundation in various areas of computer science, including programming, data structures, and algorithms. I constantly seek opportunities to expand my knowledge and stay updated with the latest advancements in the industry.

Intrenships

Sangli Software | Ram mandir chowk sangli,416416

During my first-year internship at Sangli Software Company, I gained hands-on experience in web development. I learned HTML, CSS, and Bootstrap, enabling me to create visually appealing and responsive web pages. This valuable experience deepened my understanding of software development and prepared me for future endeavors in the field.

Mind-IT Services | Sawant plaza miraj

In my second year, I had the opportunity to work with Mind IT Services, where I focused on expanding my skills in SQL. This experience allowed me to delve into database management and query optimization. By working on real-world projects, I gained practical knowledge in SQL and honed my ability to handle complex data structures efficiently. My time at Mind IT Services further strengthened my understanding of database management systems and their importance in software development.

Projects

- Hangman Game
- E-commerce Website

Skills

- Problem-Solving: Ability to analyze complex problems, identify potential solutions, and implement effective strategies to resolve them.
- Teamwork: Proven ability to collaborate effectively with diverse teams, contributing to a positive and productive work environment.
- Adaptability: Demonstrated flexibility in adapting to changing project requirements, technologies, and environments.
- Communication: Excellent verbal and written communication skills, facilitating effective interaction with team members and stakeholders.
- Fast Learner: Eagerness to learn and embrace new technologies and concepts, acquiring new skills efficiently.
